

HEALTHCARE

Wellbeing | Functionality | Solutions

As a global leader in engineered surfaces, you can be confident that Wilsonart® will have the right solution for most areas of healthcare. Everything from reception areas to patient rooms and laboratory areas to high traffic corridors can be catered for with our high-performance range of finishes. And all products are backed by a 15-year warranty.

To make things easy for our design and trade partners, Wilsonart® has created several product packages, making items such as washroom systems, worktops and internal panels far easier to specify for your projects.

Importantly, with our extensive range of surface solutions from chemical resistant laminate to low pressure melamine and compact laminate to fire-rated high pressure laminate we have a surface for your healthcare application. Wilsonart® are renowned for their wide range of colours

and textures, and endless custom graphic options. Giving you the opportunity to let your imagination run wild and create truly unique areas!

With creativity also comes performance and Wilsonart® is a leader in this area with products such as AEON™. Delivering scratch and scuff resistant laminate that surpasses international standards by 3 – 5 times.

As well as high-performance and design, patient wellbeing is a big priority and ensuring that our products meet or surpass accreditations such as Greengard is important to us, and vital to the environments that our products appear in.

Wilsonart International, global suppliers of high-pressure laminate, compact laminate, low pressure melamine and specialty laminate designs are exclusively distributed in Australia by HVG Decorative Building Products.
