A lifetime of quality.

Innovative splashback solution.

Are you visualising an outstanding interior finish for your project? Durallo® Splashbacks and Panels are the answer to achieve your vision.

An aluminium composite panel, manufactured in Germany by 3A Composites, Durallo® has a factory applied coil coated fluoropolymer paint finish, recognised and proven worldwide as the best architectural coating available today. Extremely versatile, Durallo® boasts a number of excellent qualities, including high formability and stability, a diverse colour palette, light weight and large panel sizes, simple fabrication and installation techniques, guaranteed durability, and ease of maintenance and cleaning.

Durallo® can be used for an extensive range of applications, including residential kitchen splashbacks, bathroom walls, commercial interior walls, and feature pieces. The comprehensive choice of colours and finishes is constantly expanding and adapting to latest trends, offering designers unlimited possibilities for innovative, stylish interior planning.

Durallo® Splashbacks and Panels are ideal for designers who highly value the use of eco-friendly materials in their projects. Both the core material and the aluminium skins of Durallo® can be recycled and reused for the production of new material.
