# LAMINATE SURFACE TEXTURES

## #01 HIGH GLOSS - PREMIUM

 A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical application.

## #07 TEXTURED GLOSS - PREMIUM

 A textured finish which reproduces the high sheen of waxed wood furniture. Recommended for horizontal and vertical application.

## #12 SOFTGRAIN - PREMIUM

 A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical application.

## #16 CASUAL RUSTIC - PREMIUM

 A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical application.

## #18 LINEARITY - PREMIUM

 A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical application.

## #19 LENO WEAVE\* - PREMIUM

 Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss mix. Recommended for horizontal and vertical application.

## #22 ANTIQUE - PREMIUM

 A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical application.

## #28 GLOSS LINE - PREMIUM

 A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical application.

## #38 FINE VELVET TEXTURE

A smooth textured finish with moderate reflective value. Recommended for horizontal and vertical application.

## #52 QUARRY - PREMIUM

 Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical application.

## #60 MATTE

Textured finish with a moderate reflective quality. Recommended for horizontal and vertical application.

## #78 FINEGRAIN - PREMIUM

 This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.

## #35 MIRAGE - HD PREMIUM

  Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished. Recommended for horizontal and vertical application.

## #55 GLAZE - HD PREMIUM

  A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical application.

## #57 ALIGNED OAK\* - HD PREMIUM

  Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical application.

Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

ANTIMICROBIAL PROTECTION is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces.
