

Cut and Edged Range

SmartStyle introduces precision-cut doors and panels, manufactured in Australia, and designed for seamless integration into your upcoming project.

Explore the harmonious fusion of modern sophistication and contemporary aesthetics through our range of flat cabinet doors or panels. Effortlessly achieve a sleek and modern appearance for your project with SmartStyle Cut and Edged doors, simplifying the process of creating a contemporary look for any space.

Comprising more than 90 decorative options, including solid colours, woodgrains, concretes, and stones, the range also features five exquisite ultra-matt decors from the Traceless Collection. Not only are these designs highly durable, but they are also easy to maintain. The SmartStyle Cut and Edged collection seamlessly integrates with our laminate decors, allowing for a unified design palette. With its extensive array of decors, sizes, and finishes, this range is the ideal solution for every room, whether it would be the kitchen, bathroom, laundry, or custom cabinetry in residential or commercial spaces.

Finishes

- V Velvet**
Deeper, richer look and touch
- XM Xtreme Matt**
Smooth, soft finish with a natural look
- G Glis**
A glossy, highly reflective finish
- H Hewn**
Embossed textured finish replicating hewed timber
- T Traceless**
Smooth and silky finish that is ultra matt, anti-fingerprint and scratch resistant

Cut and Edged Range

Matching ABS Edging

Every door and panel comes with standard matching ABS edging. Renowned for its strength, impact resistance, and durability, our ABS edges provide the ideal solution for achieving a seamless design.

Matching and Complimentary

Elevate your unique design with perfectly matched or complementary horizontal decor. Use the SmartStyle Cut and Edged doors with our HPL Laminate range.

Australian Made

Our doors are produced at our HVG Manufacturing facility in Victoria. We commit to providing premium-quality doors with prompt turnaround times, ensuring a reliable supply chain to meet the needs of our customers.
