# Modernising Commercial Interiors with HOMAPAL®

# About

Tivoli Lounge, nestled in the heart of Lippstadt, Germany, has earned a reputation as a go-to destination for both locals and visitors.

Beyond its vibrant social scene, Tivoli Lounge captivates guests with its thoughtfully curated interior.

Behind the bar, HOMAPAL® Specialty Laminates take centre stage, featuring Brushed Selenio Gold within each cube. This bold and striking material, paired with carefully positioned background lighting, enhances the venue's warm and inviting ambiance.

The interplay of metallic textures and soft illumination creates a visually stunning focal point that complements the lively spirit of the lounge.

# A Touch of Gold

The design of Tivoli Lounge's bar was carefully curated to create a visually striking and immersive experience for guests. With a focus on bold aesthetics and warm ambiance, the bar features an array of gold hues that elevate its lively atmosphere.

Gold hues take centre stage, with interlocking cubes in the shelving adding depth and sophistication. The interplay of metallic tones and ambient lighting enhances the bar's inviting glow, making it a focal point of the space.

More than just a place to grab a drink, the bar's design creates a memorable experience, seamlessly complementing the lounge's vibrant energy.

# A Blend of Colour and Texture

In this space, HOMAPAL® Brushed Selenio Gold was carefully selected to line the inside of the cube shelves, infusing the design with warmth, depth, and a touch of luxury. Its brushed texture catches the light beautifully, creating a dynamic interplay of elegance and contrast.

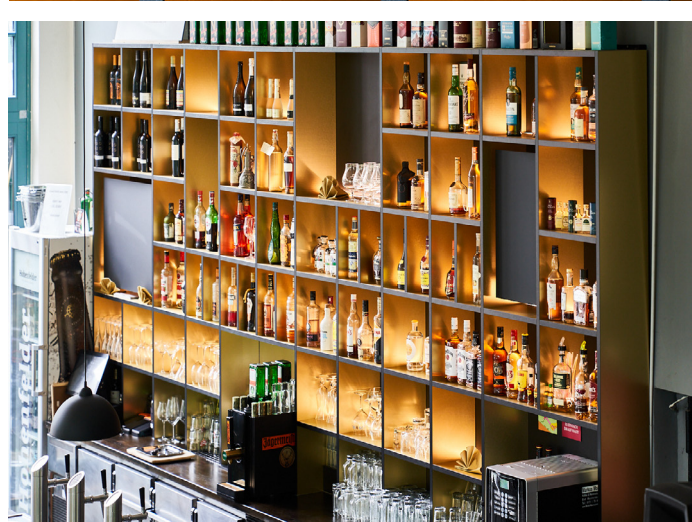

Golden hues have long been associated with sophistication and refinement, and here, they transform a functional element into a striking focal point.

Brushed Selenio Gold brings a warm, inviting atmosphere to the space, radiating understated elegance.

HOMAPAL® real metal HPL surfaces are celebrated for their ease of processing and vibrant colour depth. Perfectly suited for both decorative and vertical applications, these surfaces create a unique sense of space, transforming ordinary environments into extraordinary experiences.

The Tivoli Lounge in Lippstadt showcases how HOMAPAL® real metal surfaces can elevate commercial interiors to new heights. Blending functionality with striking aesthetics, this project highlights the transformative impact of premium materials. For architects and specifiers looking to craft standout spaces, HOMAPAL® delivers versatility and inspiration in every detail.
